devBites

CERTIFICATE

CERTIFICATE OF COURSE COMPLETION

Paweł Wilczek

This certificate confirms the completion of the **devBites** course **Feature Flags - Potężna Technika Continuous Delivery** , covering the following skills:

- ✓ Ability to separate application deployment processes from feature release, increasing flexibility and security
- ✓ Use of branching techniques without creating new branches in version control systems
- ✓ Application of design patterns and abstraction to minimize complex conditional statements
- ✓ Incremental deployment of new features to ensure application stability

- ✓ Storage and handling of feature flag configurations to enable dynamic feature management
- ✓ Knowledge of different types of feature flags and their applications depending on project needs
- ✓ Identification and avoidance of issues related to feature flags usage

Tomasz Stolarczyk
